Gday Timm.

Not sure if you remember me but I have changed a lot since I got older and had more adventures with the military over here. A lot of the tactics and techniques I learnt at your school saved me on more than 2 occasions, and the fight techniques taught by Gee I think his name was. He was a knife maker. That helped me out a lot over the past 10 years.

From the ultra aggressive young punk, I have now grown up a lot. Your course I need to say was brilliant and helped me get to to level I made over here in US SF. The Ronin course opened a lot of opportunities for me and lead to a lot of adventures. So I thank you greatly.

I will get a clearance report too you as soon as I can.

Respectfully

Dave T [REDACTED].
